---

**CAREER OUTLOOK**

Nurse Practitioner job growth is projected to increase1 by 40% through 2031 due to an interest in preventative care combined with an aging population in need of healthcare services.

According to the Bureau of Labor Statistics2, the median salary for nurse practitioners in 2021 was $120,680 and increased for those who worked in a hospital, outpatient care center, or a physician or other health practitioner’s office.
